

Jabra PRO™ 9460 Mono

Flexibility Around the Office

The Jabra PRO 9460 series wireless headset is for knowledge workers who cannot afford to be out of touch. Roam up to 150 meters/450 feet away and still answer calls from your desk phone, or softphone application. Touch screen display makes configuration and call management easy. All with best-in-class noise cancellation, acoustic protection, and audio quality.

Industry first wireless office headset with user-friendly touch screen for easy call management

The Jabra PRO 9460 features an exclusive touch screen base that simplifies call management. The touch screen provides users with call management icons, a dial pad, and other helpful features.

One wireless headset for your desk phone, and softphone - simultaneously

For knowledge workers who need to be reachable – no matter where they are and no matter which device is ringing - the Jabra PRO 9460 is the one headset that brings all your calls together into one hands-free device. Productivity increases, time to completion drops, and workers are happier.

Crystal clear conversation even in noisy open plan offices

Jabra's PRO 9460 incorporates a number of best-in-class sound quality features, such as Digital Signal Processing (DSP) for greater intelligibility, SafeTone technology for enhanced hearing protection, Noise Blackout for outstanding noise cancellation, and high definition sound with HD Voice / Wideband audio.

Walk and talk up to 150 meters/450 feet from your desk

With up to 150 meters/450 feet of range, the Jabra PRO 9460 gives knowledge workers the ability to get up, answer and end calls, and do whatever needs to be done while the customer is still on the phone. Faster project cycle speed and problem resolution means more productivity.

Future-proof investment - free software upgrades available

Jabra PRO 9460 is 100% software based and therefore future proof. The system comes with free software that allows you to interface with a range of softphone standards via the embedded drivers as well as update your Jabra headset solution with free Value Packs and Service Packs.

Jabra®

Description

- Wireless Headset with Touchscreen for Softphone and Desk Phone

Designed for

- Mono wireless headset with touchscreen optimized for office personnel with dual connectivity that makes it easy to handle calls from both your desk phone and softphone.

Works with

Jabra PRO™ 9460 Mono Product Benefits

Crystal Clear Sound

Digital Signal Processing for clearer sound

Clear sound is essential for a good conversation not to mention call efficiency and accuracy. Digital Signal Processing (DSP) in Jabra audio devices will remove background noise and echo as well as protect the user against sudden high peaks in volume. Call handling time and potential misunderstandings are significantly reduced.

HD Voice – Wideband Audio

High quality audio for crystal clear conversations

Enjoy high-definition sound with HD Voice and get crystal clear, intelligible communication. You get life-like, vibrant conversations where you can focus on the content and don't have to struggle to understand what the person on the other end of the line is saying.

Jabra Software Applications

Easy device configuration and softphone integration

Customize and control your audio device settings with Jabra's software applications. You get full integration and remote call control with the latest generation of softphones.

PeakStop™

Safe sound and superior hearing protection

PeakStop technology immediately removes potentially harmful loud sounds or tones before they reach your ears and keeps the sound level within the safe range to protect your hearing.

Remote Asset Management

Remote mass deployment and device management

Configure and implement the company's audio devices 100% remotely from one central point. You get the latest features and functionalities on one go with Jabra Xpress, a web-based solution. You can also get a complete overview of all Jabra audio devices installed in the IT network with Jabra Xpress' asset management component.

Remote Call Control

Seamless integration between your phone and headset

Answer and end calls on the Jabra audio device with seamless integration between your phone and headset. The remote call control gives you the power to multitask and be productive. With a Jabra wireless audio device you can control your call even when you are away from your desk.

SafeTone™

Enhanced hearing protection

Jabra SafeTone includes Jabra PeakStop and Jabra IntelliTone™, the enhanced hearing protection technology. Benefit from clear, crisp and automatic limitation of average volume exposure during your workday according to acoustic standards and regulations. A feature that offers you significant confidence, safety and comfort while enhancing the quality of your communication.

Talk in Comfort

Be kind to your ears

Our light, ergonomically designed frame along with soft ear cushion, adjustable headband and microphone boom will guarantee that your headset will be comfortable all day long.

UC Plug-And-Play

Plug-and-play with all leading UC platforms

Jabra devices feature intuitive call control and seamless connection to all leading UC applications and softphones. They are easy to set up and easy to use, leaving you free from any installation expertise or extensive training requirement.

150 Meter Wireless Freedom

Hands-free communication up to 150 meters

Get wireless mobility up to 150 meters to fully control your Jabra hands-free solution with DECT technology. Answer calls, multitask and move freely around on your terms.

Noise Blackout™

Eliminate background noise interference

Jabra Noise Blackout technology eliminates disturbing background noise such as wind, surrounding conversations or traffic to enhance your voice. So you can now talk freely without raising your voice excessively.

Noise Canceling™ Microphone

Reduces unwanted background noise

Noise Canceling technology reduces unwanted background noise and the microphones are ideal in crowded and noisy, open office environments.
